Cardinal HCM User Tips

Accessing Cardinal HCM
Cardinal can be accessed over public internet using my.cardinal.virginia.gov. A valid email address is required to access/log into Cardinal. For more information, visit www.cardinalproject.virginia.gov/portal.

Password Tips
If a password is entered incorrectly, the user will automatically be locked out after 3 failed attempts. Users will be required to reset their passwords every 90 days. If the user has forgotten a username or password or locked themselves out, they can complete theForgot Username/Forgot Password Request.

System Timeouts
Cardinal “times out” or terminates any session that is inactive for 30 minutes. If a user is timed out, any work that has not been saved will be lost. Two minutes before a timeout occurs, the user will receive a warning message indicating that the session is about to time out.

It is always recommended to save the work as often as possible. If multiple Cardinal windows are open, the user is timed out of all windows.
